

Part A. PERSONAL INFORMATION

CV date	2023/06/10
First and Family name	Nestor Etxebarria Loizate
ID number	
Researcher numbers	Researcher ID C-7341-2008 Orcid code 0000-0002-2942-9463

A.1. Current position

Name of University/Institution	Universidad del País Vasco / Euskal Herriko Unibertsitatea		
Department	Dept. Analytical Chemistry		
Address and Country	Plentzia Marine Station & Faculty of Science & Technology		
Phone number	94 601 5530	E-mail	nestor.etxebarria@ehu.eus
Current position	University Professor	From	30/10/2011
UNESCO Code	2301 10 – 2301 11		
Keywords	Analysis of organic micro-contaminants – Mass spectrometry-Environmental Analysis		

A.2. Education

Degree	University	Year
PhD	UPV/EHU	1993
BsC	UPV/EHU	1987

A.3. Quality indicators of the scientific production

My research is focused to the application of high-throughput analytical techniques, HPLC-HRMS, and non-targeted approaches to environmental issues. In this context, we are working on the exposure effects of contaminants in organisms and in human health and in the metabolomics analysis of endogenous metabolites.

- 5 research periods of six years (last one 2021)
- 6 Ph D Thesis were supervised between 2012-22 (15 in total)
- A2-level Researcher (Unibasq. 2022)
- 178 publications, >4000 total citations, 400 ave. cit (2019-22), and *h*-index 38
- Q1 publications: 140

Part B. CV summary (max. 3500 characters, including spaces)

Nestor Etxebarria Loizate, PhD in chemical sciences (1993), and since 2011 Professor at the Dept of Analytical Chemistry of the UPV/EHU. Currently I am member of the IBeA Research Group (www.ehu.eus/Ibea), a high-performance research group including 16 PhD staff members and more than 20 researchers, and one of the main groups supporting the Plentzia Marine Station (PiE).

The research activities started during the PhD and were focused on solution equilibria studies. Later, during my postdoc stage at the JRC-IRMM (Geel, Be) I worked with the implementation of instrumental neutron activation analysis for the quality control of the production of reference materials. Once back at the UPV/EHU, I focused the research activities on the analysis of organic microcontaminants and ecotoxicology.

In the last five years, we are leading a research group in the development of nontarget analytical methods and the application in environmental and ecotoxicological issues. In this sense, we have coordinated three research projects from the Spanish Ministry addressing these methods in metabolomics and exposomics and taking part in many collaborative and interdisciplinary projects. Since the opening of the PiE in 2014, our activities are getting focused in marine environmental issues in joint research projects. Our group collaborates with several research groups of the Basque Country, Spain and Europe, especially those carried out in the frameworks of the European [Norman](#) network and the [EMBRC](#) (European Marine Biological Research Centre).

We are also deeply engaged in the Erasmus + on Marine Environment and Resources (MER, [merconsortium.eu](#)) and the new Erasmus + on Environmental Contamination and Toxicology (eCT, [ectplus.eu](#)). Finally, our group is part of the *Joint Research Laboratory on Environmental Antibiotic*

Resistance including the main research organizations in the Basque Country (UPV/EHU, BC3-Basque Centre for Climate Change, Neiker and CIC-BioGune).

I am co-author of 192 publications in international journals and co-author of four textbooks of chemistry and analytical chemistry in Basque. As mentioned, I was the PI of three projects of the Spanish Ministry, I have also participated in an H2020 project (2016-19), and recently BlueAdapt EU project (in call HORIZON-HLTH-2021-ENVHLTH-02) has been approved.

I have supervised 15 PhDs and more than 25 master theses. Between 2008 and 2011, I was the coordinator of the Grade in Chemistry at the Faculty of Science & Technology. From 2011 to 2019, I was the Head of the Department of Analytical Chemistry at the UPV/EHU. Currently, I am member of the academic board of the Erasmus Mundus Master on Marine Environment and Resources (now Erasmus+, 2018-2023) and since May 2020, I am the coordinator of the Master on Environmental Contamination and Toxicology (UPV/EHU).

Part C. RELEVANT MERITS

Other merits (e. g., Institutional responsibilities, memberships of scientific societies...)

C5 Stages in international sites:

- Royal Institute of Technology (KTH) (Estocolmo, Suecia). *Migration or radionuclides in groundwaters* 1990, July-Sept. (12 weeks)
- Institute of Reference Materials and Measurements JRC-IRMM (Geel, Bélgica). *Development and application of Instrumental neutron activation analysis for the production and certification of reference materials.* 1994-1996 (2 years)

C6 Academic activities

- PhD Thesis: 4 (2016-22) and 3 more on-going
- Master thesis and Grade thesis supervision: 24
- Member of the academic board of Erasmus Mundus Master on Marine and Environmental Resources (since 2007/08) and from 2018 to 2023 Erasmus + Master. UPV/EHU, U. Bordeaux I, U. Liege, U. Southampton, U. Azores)
- Coordinator of the Grade in Chemistry June 2008 - July 2011
- Head of Department of Analytical Chemistry July-2011-2019
- Coordinator of the Master Environmental Contamination and Toxicology (May2020-)
- Summer Courses of the UPV/EHU
 - 2019. Resistencia a antibióticos en el medio ambiente: origen de un escenario apocalíptico
 - 2020. Resistencia a antibióticos. Una visión One Health: personas y animales sanos y medio ambiente más seguro

C7 Other activities

- Co-author de 5 textbooks
- Co-author of 10 book chapters
- More than 25 communications in international congresses
- Member of Scientific committee in 2 International Congresses: 40th Int. Conf. on Environmental & Food Monitoring (ISEAC-40), 2018 and VI Int Symp on Marine Sciences (ISMS2018).
- Supervisor of Radioactive Installation (CSN) 2012- (IRA/2817 X-ray fluorescence X)
- Referee in Anal. Chim. Acta, J. Chromatogr. A, Talanta, Toxicol. Environ. Chem., Sci. Tot. Environ., Est. Coast. Shelf Sci., Water Research, Wiley)
- Reviewer of National Evaluation and Foresight Agency (ANEPE)
- Outreach activities:
 - Elhuyar Science Fair. In the last three years I have participate in mentoring high school students in different chemical and environmental projects.
 - Open-days @ PiE to show the research activities at the Marine Station.
 - Teknopolis (EiT) on Water treatment systems and the impact of emerging contaminants.
 - Ikergazte (2017,2019,2021,2023)
- Norman Network. I am attending all the General Assemblies since 2016.
- EMBRC activities @ PiE-UPV/EHU
 - Stazione Zoologica Anton Dohrn (Naples, It). Two stages (2018 & 2019)
 - Norwegian University of Science and Technology. One stage (2019)
