Summary of the CV

I am Ramón y Cajal Researcher and Ikerbasque Fellow at the University of the Basque Country, Bilbao, where I lead the group *Quantum Computation and Architectures* since 2018, which comprises two senior and one postdoctoral researchers, and seven PhD, three Master and two Bachelor students. The two main research lines that we are developing are *quantum computing in NISQ architectures* and *microwave quantum communication and sensing*. We have close experimental collaborations in superconducting circuits and quantum photonics with R. Gross and F. Deppe at the Walther-Meissner Institute (Garching, Germany), Y. Nakamura at the University of Tokyo (Japan), B. Huard at the École Normale Supérieure de Lyon (France), and A. Wallraff at ETH Zürich (Switzerland). We are also exploring a novel research line of in-hardware engineered quantum neural networks employing quantum memristors. We have the first experimental results in superconducting platforms in collaboration with M. Mariantoni at the IQC (Waterloo, Canada), and in quantum photonics with J. Lukens at the ORNL (Tennessee, USA).

I have actively participated in several National, European and International projects. I was PI of the European FP7-ICT project *Quantum Propagating Microwaves in Strongly Coupled Environments* (PROMISCE, €294,588) and I am currently PI of the Quantum Flagship projects *Quantum Microwave Communication and Sensing* (QMCS, €317,000) and *An Open Superconducting Quantum Computer* (OpenSuperQ, €420,000), and PI of the US DoE project *Heterogeneous Digital-Analog Quantum Dynamics Simulations* (HDAQDS, \$280,000). Currently, I also have, together with Dr. Jorge Casanova, several projects with the quantum computing company IQM Germany on Hybrid quantum algorithms and optimization for quantum computers (€240,000).

According to Google Scholar my h-index is 26 and my i10-index is 47. My 68 articles have received over 2227 citations, more than 1883 of which happened in the last 5 years. I have submitted, on average, 9 papers per year since 2015. I have organized the international Workshops *Ultra-Strong Light-Matter Interactions* in 2016 and *Quantum Machine Learning and Biomimetic Quantum Technologies* in 2018. Recently, I have organized an IBM Quantum Hackathon in Bilbao in collaboration with IBM and Innolab Bilbao, in which I was also mentor of several groups. Additionally, I am Guest Editor of a special issue entitled *Quantum Machine Learning and Biomimetic Quantum Technologies* in the prestigious journal Advanced Quantum Technologies, referee of multiple peer reviewed journals, secretary-treasurer of the Basque division of the Spanish Royal Physics Society (RSEF), and evaluator of the Polish National Science Center since September 2018.

Furthermore, I enjoy being deeply involved in the education of young researchers. Proof of this is that, in the last few years, I have supervised 13 Bachelor theses, some of them published as papers, 10 Master theses, and I am currently the official supervisor of 7 PhD students. I also have teaching experience at undergraduate level at the TU Munich.

Education

- Technische Universität München, Munich, Germany – **Ph. D. in Physics**, 2011
- Universidad Autónoma Madrid, Madrid, Spain – **M. Sc. in Theor. Physics**, 2008
- Technische Universität München, Munich, Germany – **Dipl.-Phys.**, 2007
- University of Basque Country, Bilbao, Spain – **Lic. Fis.**, 2005

Experience and Research

Ikerbasque Fellow, University of the Basque Country; Bilbao, Spain – 2020-present

Tenure-track position at the University of the Basque Country - Sep. 2020-present

Head of Quantum Finance, IQM Germany; Munich, Germany – 2020-present

Leading the department of application of quantum computing to Finance at IQM, the leading European company in quantum computing software and hardware - Jun. 2020-present

Group Leader, University of the Basque Country; Bilbao, Spain – 2018-present

Leading the group on Microwaves Quantum Technologies and Architectures - Aug. 2018-present

Postdoctoral Researcher, University of the Basque Country; Bilbao, Spain – 2013-present

QUTIS Center (Prof. E. Solano), Quantum Simulations, Quantum Computing, Quantum Biomimetics, Superconducting Circuits, Propagating Quantum Microwaves - Mar. 2013-present

Mida's Comparatives; Bilbao-Geneva, Spain-Switzerland – 2012-2013

CEO & Researcher, Algorithms and Rating Agencies evaluation- Jun. 2012 – Feb. 2013

Ph. D., Max-Planck Inst. for Quantum Optics; Munich, Germany – 2006-2010

Theory Division (supervisor Hon. Prof. Dr. J. I. Cirac). Acad. title: *Doktor der Naturwissenschaften (Dr. rer. nat.)*. Topic: *Tensor Networks in Condensed Matter*. Grade: *Cum Laude*.

Postgraduate Student, CSIC; Madrid, Spain – 2005-2006

Institute of the Structure of Matter (Prof. J. Bermejo & Dr. C. Cabrillo). Grant I3P-CSIC. Nanotubes and algorithms. Topic: *Large Matrix Inversion via a Monte-Carlo Algorithm*.

Teaching Experience

Tutorial assistant, Technische Universität München, Germany – 2007-2008

Faculty of Physics - Sep. 2007 - Jun. 2008 (two semesters). Theoretische Physik 4A (Quantenmechanik II) - WS and Theoretische Physik 1 (Mechanik) - SS

Bachelor Theses Supervisor, University of the Basque Country, Spain – 2015-2021

Faculty of Science and Technology – I have supervised 13 Bachelor Theses: Nikolaus Rath. (Jacobs University Bremen, 2008), Hodei Eneriz (2015), Ibai Zabala (2016), Cristian Romero (2016), Jon Cipitria (2018), Bruno Candelas (2018), Borja Ramón (Physics and Electronic Engineering, 2019), Asier Galicia (2019, he won the *Excellence Fellowship* of the Basque Government and published a paper), Asier Izquierdo (2019), and Rubén Ibarrondo (Physics and Electronic Engineering, 2020, for which he has won the competitive *Ikasiker Grant*, and published a paper). I am currently supervising the Bachelor theses of Julen Uribetxeberria and Iñaki Iriarte.

Master Theses Supervisor, University of the Basque Country, Spain – 2015-2021

Faculty of Science and Technology – I have supervised 10 Master Theses: Paul Pfeiffer (co-supervision, LMU, 2015), Hodei Eneriz (2016), Tasio González-Raya (2018), Francisco Horta (co-supervision, University of Lisbon, 2018), Dennis Portmann (2018), Bruno Candelas (2019), and Borja Ramón and Paula García (2020). I'm currently supervising the master theses of Rubén Ibarrondo, Gabriel Marín and Mikel García de Andoin.

PhD Theses Supervisor, University of the Basque Country, Spain – 2018-2021

Faculty of Science and Technology – I have supervised the day-to-day Theses of Roberto di Candia and Urtzi Las Heras, and I am currently officially supervising Tasio González-Raya, Ana Martín, Giancarlo Gatti, Javier Gonzalez-Conde, Rubén Ibarrondo, Maximilian Reichert, and Mikel García de Andoin.

R&D Projects

As PI of the project

- **Hybrid quantum algorithms and optimization for quantum computers.** Project with the company IQM Germany (17/06/2020-30/07/2021). €120,000 (My part €60,000)
- **Generating quantum algorithms and quantum processor optimization.** Project with the company IQM Germany (01/08/2021-30/07/2022). €60,000
- **Quantum Microwaves for Communication and Sensing (QMICS).** FET-FLAG Project (01/10/2018-31/03/2022). €317,500
- **An Open Superconducting Quantum Computer (OpenSuperQ).** FET-FLAG Project (01/10/2018-31/03/2022). €420,000
- **Heterogeneous Digital-Analog Quantum Dynamics Simulations (HDAQDS).** US DoE Project (07/11/2017-06/09/2020). \$290,000
- **Propagating Microwaves in Strongly Coupled Environments (PROMISCE).** FET-OPEN Project (01/04/2012-30/09/2015). €294,588 (I play the role of co-PI from 2013 on)
- **Quantum Technologies (QUANTEK).** Elkartek Project (01/08/2021-31/12/2022). €132,098

As team member and active participant

- **Electronic-Photonic Integrated Quantum (EPIQuS).** FET-OPEN Project (01/10/2020-30/09/2023). € 297,750
- **Neuromorphic Quantum Computing (QuroMorphic).** FET-OPEN Project (01/06/2019-30/05/2022). € 304,750
- **Quantum Information, Science, and Technology (QuInST II).** Basque Government Project (01/01/20016-31/12/2021). €796,000
- **Quantum Information with Quantum Technologies.** MINECO Project (01/01/2016-31/12/2018). €106,722
- **Ultra-Strong Light-Matter Interactions: Theory and Applications to Quantum Information.** UPV-EHU Project (21/09/20016-21/03/2017). €4,000
- **Scalable Superconducting Processors for Entangled Quantum Information (SCALEQIT).** FET-OPEN Project (01/04/2013-31/01/2016). €298,990
- **Circuit Quantum Electrodynamics.** MINECO Project (01/02/2013-31/12/2018). €41,000
- **Circuit and Cavity Quantum Electrodynamics (CCQED).** ITN Marie Curie Project (01/01/2011-31/12/2015). €451,959.20
- **Quantum Information, Science, and Technology (QuInST).** Basque Government Project (01/01/2010-31/12/2015). €562,000

- **Solid State Systems for Information Processing** (SOLID). FET-OPEN Project (01/02/2010-30/09/2013). €220,380

Impact - Technology Transfer

Through the project Hybrid quantum algorithms and optimization for quantum computers with the quantum computing company IQM Germany, we have a licensing and patenting agreement since June 2020. I have already a **European patent** application called *Quantum Computer-Implemented Method for Solving a Partial Differential Equation* (Appl. Number EP20382822 of the 17.09.2020). We are currently applying for another patent.

Awards and Recognitions

- Awarded with the **Ikerbasque Fellow** tenure track in 2020.
- **Evaluator** for the *National Science Center* in Poland and of the *Quantum Center* in Trento (Italy).
- **Guest Editor** of special issue entitled *Quantum Machine Learning and Biomimetic Quantum Technologies* in the journal *Advanced Quantum Technologies* (Wiley).
- **Secretary-Treasurer** of the Basque Country section of the *Spanish Royal Society of Physics*. Among other tasks, I organize the local stage of the Olympiads of Physics.
- **Referee** of scientific journals of ISI (indexed) in Mathematics and Physics, among them *Nature Communications*, *npj Quantum Information*, *Physical Review Letters*, *Physical Review X*, *A and B*, *Review of Modern Physics*, *Scientific Reports*, several IEEE journals and *Communications of Mathematical Physics*.
- **Fellow** of Program of Excellence *Quantum Computing, Control and Communication* of the Elite NetzWerk Bayern (2006-2010).
- **Grantee** of the prestigious PhD Fellowships FPU (Ministry of Science) and I3P (CSIC).
- Highest grade out of the students of the class of 2005 at the Faculty of Physics of the *University of Basque Country*. Awarded with the *Premio Extraordinario de Licenciatura* (Special Price for Outstanding Academic Achievement).
